SETTING THE MODE AND FAN SPEED

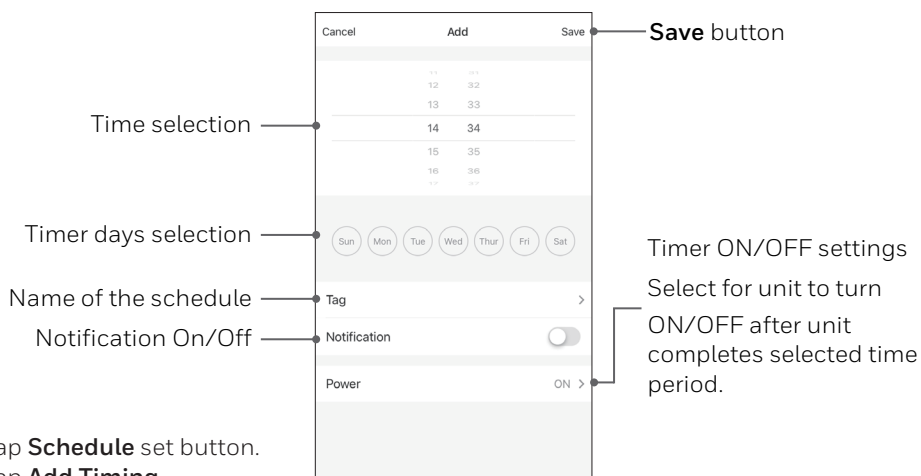

- Tap **Mode** button.
- Select the **Cool, Dry, Fan or Sleep** mode.

- Tap **Speed** button.
- Select the **High, Medium or Low** fan speed setting.

SETTING A TIMER

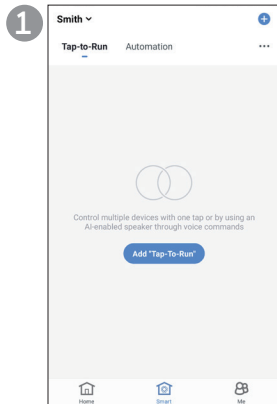

- Tap **Schedule** set button.
- Tap **Add Timing**.
- Set the timer(s).
- When the timer is set, tap **Save**. Multiple timers can be set following the same steps.
- The air conditioner will turn off or on at the set time and operate, or stay turned OFF until it is manually switched off or activated again. If you would like to set the unit to turn off or on at a set time, set a second timer to automate this.

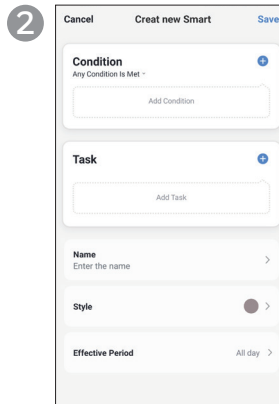

USING THE APP (CONTINUED)

ADDING A TAP-TO-RUN

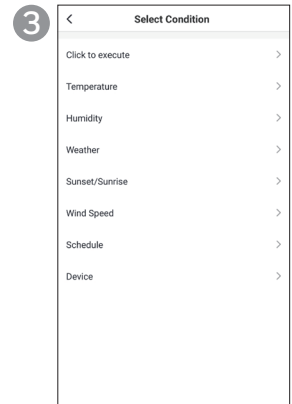

NOTE: The tap-to-run feature allows you to activate a set of air conditioner actions at the same time with one tap.

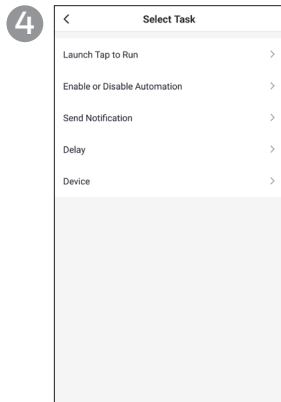

- Tap **Smart** control button.
- Tap **Add "Tap-To-Run"**.

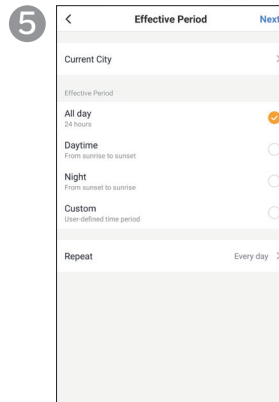

- Tap **Name** to set the name of the tap-to-run action.
- Tap **Style** to set the background color or image.

- Tap **Condition** to add a condition to the tap-to-run action.
- Select condition(s) you want to add.

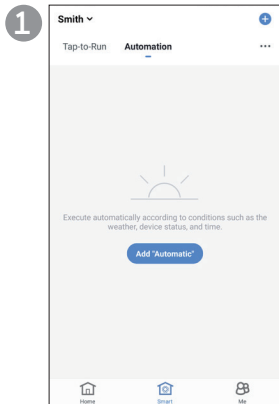

- Tap **Task** to add a task to the tap-to-run action.
- Select the task you want to add.

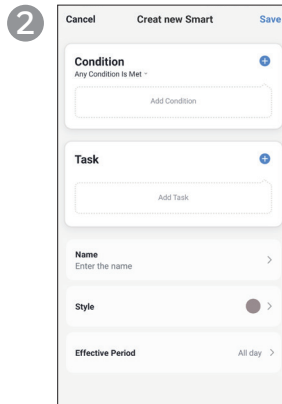

- Tap **Effective Period** to select when the tap-to-run action should activate.
- Tap **Next**.
- Tap **Save**.

ADDING AN AUTOMATION

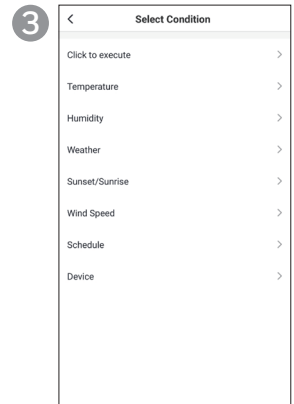

NOTE: The automation feature automatically activates a set of air conditioner actions when the set conditions are met.

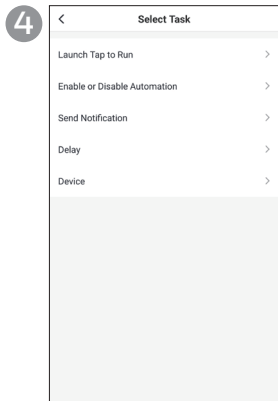

- Tap **Smart** control button.
- Tap **Add "Automatic"**.

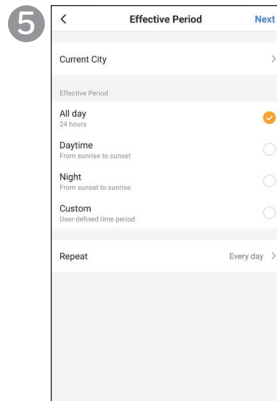

- Tap **Name** to set the name of the automation action.
- Tap **Style** to set the background color or image.

- Tap **Condition** to add a condition to the automation action.
- Select condition(s) you want to add.

- Tap **Task** to add a task to the automation action.
- Select the task you want to add.

- Tap **Effective Period** to select when the automation action should be active.
- Tap **Next**.
- Tap **Save**.

CONNECTING TO AMAZON ECHO

NOTE: Ensure your Amazon Echo device is switched on and connected to the Wi-Fi network.

- Open the "Amazon Alexa" app on your device.
- Tap  and then **Skills & Games**.
- Tap  and type "Honeywell Air Comfort". Tap the **Honeywell Air Comfort** skill.
- Tap **ENABLE TO USE** button.
- Enter your Honeywell Air Comfort App login and password.
- Tap **Link Now** and then tap **Authorize**.
- Tap **Done**.
- Tap **DISCOVER DEVICE**. Choose "Portable Air Conditioner".
- Tap **SET UP DEVICE**. Choose a group for the device or tap **SKIP**.
- Choose "Portable Air Conditioner".
- Tap **DONE**.

CONNECTING TO GOOGLE HOME

NOTE: Ensure your Google Home device is switched on and connected to the Wi-Fi network.

- Open the "Google Home" app on your device.
- Tap + on the top left. Tap **Set up device**.
- Tap **Have something already set up?**
- Tap  and type "Honeywell Air Comfort". Tap **Honeywell Air Comfort**.
- Enter your Honeywell Air Comfort App login and password.
- Tap **Link Now** and then tap **Authorize**.
- To add the portable air conditioner to a room, tap the **Portable Air Conditioner** and then tap **Add to a room**. Or tap the **X** on the top left to skip.
- Choose a room for the device, tap **Next** and then **DONE**.

Switching on/off:

- Say: "Alexa/Hey Google, turn on/off portable air conditioner".

Setting the target temperature level:

- Say: "Alexa/Hey Google, set Portable Air Conditioner to XX."
(Set between 16 °C – 30 °C)

Switching the Tap-To-Run/Automation on/off:

- Say: "Alexa/Hey Google, switch <scenario name> on/off."
